Concern for the environment on the part of business today is already more than just a trend. Companies do this not only to create a positive image. Many enterprises are interested in developing the surrounding space in which they work. In addition, it is often even profitable for businesses to implement projects of this kind.

The purpose of the webinar is to present leading projects, present the activities of companies working in this area, establish contacts and intensify cross-border cooperation.

The organizer is the Pechenga District Municipality in collaboration with the “Second School” Development project centre of Pechenga District
